

MOHAB ELGHANNEY

WEB DEVELOPER

Profile

My name is Mohab Elghanney, and I am a full-stack developer currently studying Computer Science at ISIMG. I have a strong passion for building efficient, scalable, and user-friendly applications, with expertise in both front-end and back-end technologies. My skill set includes working with modern frameworks and development environments to deliver innovative solutions. I am always eager to learn and take on new challenges to grow as a developer and solve real-world problems.

AURES Group

Internship Trainee AURES Group - Full-time

City: Golaa Douz | Country: Tunisia | Business or sector: Other service activities

- During my internship at Aures Group, I had the opportunity to contribute to the development and enhancement of the company's website. Working closely with the web development team, immersed myself in various aspects of website design, functionality, and user experience.
- 1. Website Analysis and Planning:
 - My journey began with a comprehensive analysis of the existing website architecture, identifying areas for improvement and optimization. Collaborating with senior developers, we outlined a strategic plan to enhance the website's functionality while ensuring a seamless user experience.
- 2. Frontend Development:
 - Utilizing my skills in HTML, CSS, and JavaScript, I actively participated in frontend development tasks. This involved translating design mockups into responsive web pages, ensuring cross-browser compatibility and accessibility standards. I focused on optimizing the website for speed and performance, employing techniques such as image optimization and code minification.
